PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience building secure, scalable applications using PHP frameworks (Laravel, Symfony, CodeIgniter). Skilled in RESTful APIs, authentication, and ORM, with strong frontend knowledge (Vue.js, React, Angular) and DevOps tools (Docker, Git, CI/CD). Experienced in Agile workflows, code reviews, and mentoring.

WORK EXPERIENCE

Propelrr

Software Engineer

JAN
2024
-
MAR
2025

- Developed and maintained Symfony web applications with MVC, reusable services, event listeners, and Twig extensions.
- Implemented RESTful APIs, database interactions (Doctrine ORM), and handled migrations.
- Built secure, role-based admin panels with Symfony Security, integrated payment gateways, SEO tools, cloud services, and social logins.
- Created SEO-friendly frontends, complex forms with custom validations, and ensured code quality with PHPUnit tests.
- Managed Git workflows, CI/CD deployments, and collaborated with cross-functional teams to deliver projects on time.

HiveLabs Tech.

Software Developer | Lead | Mentor

JUL
2020
-
DEC
2023

- Developed and maintained projects using Laravel Blade, Symfony Twig, Vue.js, and React, applying clean code, scalable architecture, and reusable components.
- Built and consumed RESTful APIs with secure authentication (Passport, JWT, OAuth2), handled background tasks with queues/jobs/events, and managed data via migrations, seeders, and relationships.
- Integrated third-party services: PayPal, GCash, PayMaya, PayMongo, SMTP, AWS S3, Firebase, Google Analytics, and social logins.
- Managed Git workflows, automated deployments with CI/CD, and deployed apps on AWS EC2 and DigitalOcean.
- Led scrum meetings, mentored junior developers, conducted code reviews, and collaborated with cross-functional teams to maintain code quality and best practices.

WEBX ASIA

Software Developer

JUN
2019
-
DEC
2019

- Developed, tested, and maintained enterprise web apps using Laravel Lumen (APIs) and Angular, ensuring scalability and high performance.
- Built modular Angular components, services, and reactive forms, integrated with Laravel APIs via RESTful architecture, and managed state with NGRX.
- Implemented secure APIs with Laravel Passport, middleware, versioning, and role-based access control.
- Managed databases with Laravel migrations, seeders, and Eloquent ORM, ensuring integrity and efficiency.
- Delivered cross-browser, mobile-responsive apps, maintained documentation, and contributed to team knowledge sharing.

WORK EXPERIENCE

Freelancing

Software Developer | Project Manager | BA

MAY
2019
-
APR
2020

- Designed, developed, tested, and maintained responsive web apps using Laravel, CodeIgniter, REST APIs, Bootstrap, and Tailwind CSS.
- Managed sprint plans, workflows, and risks, ensuring timely, high-quality deliverables that met client expectations.
- Gathered requirements, translated business needs into technical specifications, and maintained clear documentation.
- Worked with MySQL and MongoDB, integrated Firebase, AWS, SMTP, and implemented JSON/AJAX for data handling.
- Ensured features were secure, well-tested, and standards-compliant, collaborating with cross-functional teams for successful delivery.

Techvision ICT Solutions

INTERNSHIP

MAY
2018
-
AUG
2018

- Created responsive HTML/CSS templates and ensured cross-browser compatibility.
- Designed and developed WordPress pages and components aligned with branding and usability standards.
- Provided web support to teams and clients, resolving inquiries and technical issues.
- Identified, tested, and reported website bugs, collaborating with developers for fixes.
- Contributed to UI/UX improvements, updates, and performance optimizations.
